FOCUS ON THEMES, PRIORITIES

EUROPEAN YEAR OF YOUTH

2022 was the European Commission’s “European Year of Youth” (EYY). The aim of the year was to actively involve young people in building a fairer and more sustainable Europe, by offering them the opportunity to participate in over 12,600 activities, initiatives and programmes that took place in over 70 countries (e.g. meetings with the College of Commissioners in Brussels, “Voice your vision” - an immersive audio platform, ...). These activities aimed at improving their skills, knowledge and future prospects. The EYY was also a time to foster dialogue between young people and their political representatives, in order to promote a culture of youth participation and responsibility.

During the 2022 edition of the #ErasmusDays, many events were organized to promote the EYY thematic of the year. Discover just some initiatives¹ carried out throughout Europe below!

I could not think of a better and more compelling example of what “European way of life” concretely means.’

During the 2022 edition of the #ErasmusDays, many events were organized to promote the 35th anniversary. Discover just some initiatives carried out throughout Europe below!

PRIORITIES OF THE ERASMUS+ PROGRAMME

The four priorities of the Erasmus+ programme; inclusion and diversity, ecological transition, digital transformation, civic engagement and democratic values, are highlighted each year during the #ErasmusDays. Throughout Europe and the world, activities are organized to raise awareness of the number of ways the programme supports and promotes these priorities.

INCLUSION AND DIVERSITY

The Erasmus+ programme seeks to promote equal opportunities and access, inclusion, diversity and fairness across all its actions. Organisations and participants with fewer opportunities themselves are at the heart of these objectives and with these in mind, the programme puts mechanisms and resources at their disposal.

When designing their projects and activities, organisations should have an inclusive approach, making them accessible to a diverse range of participants.

BE TOLERANT BY LEARNING TOGETHER (Romania)

Students created a tree of thanks: they wrote messages on post-its and hung them on a tree in the schoolyard, visible to all. They also made posters and poems on the theme of inclusion and tolerance and displayed them on the walls of the school.

PARTICIPATION IN DEMOCRATIC LIFE, COMMON VALUES AND CIVIC ENGAGEMENT

The Erasmus+ programme addresses the citizens’ limited participation in its democratic processes and their lack of knowledge about the European Union, and tries to help them overcome the difficulties in actively engaging and participating in their communities or in the Union’s political and social life.

Strengthening citizens’ understanding of the European Union from an early age is crucial for the Union’s future. In addition to formal education, non-formal learning can enhance the citizens’ understanding of the European Union and foster a sense of belonging.

MADE IN ERASMUS (Sweden and Romania)
The event brought together two schools: C.N.I. Matei Basarab from Romania and Hedda Wisingskolan from Sweden. #GUESSWHERASMUS CHALLENGE

In 2022, a year marked by the 35th anniversary of Erasmus+ and the European Year of Youth, the Erasmus+ France Agency / Education Training launched a social media campaign, targeting young people (15-25 years old), during the #ErasmusDays with several objectives:

- **Create a festive digital event** across Europe (adaptable for different countries and languages),
- **Unite an Erasmus+ community** around shared experiences,
- **Attract attention** and encourage people to find out more about Erasmus+ opportunities.

This campaign took the form of a TikTok challenge, launched by four French influencers (who had benefited from the Erasmus+ programme). The principle: reproduce some simple dance moves accompanied by music in front of a photo of your Erasmus+ destination, then invite your contacts to guess the destination (#GuessWherasmus) and reproduce the challenge. The campaign was extended to Instagram to facilitate the participation of other actors – European Erasmus+ National Agencies, project leaders, etc. - and to ensure a wider impact for this campaign.

**Results:**
- More than 100 videos created by a committed and mobilised community.
- More than 525,000 impressions, 340,000 people reached, 50,000 “likes”.
- The #GuessWherasmus was also used on Twitter and LinkedIn.
